PROFILE

Full-Stack Developer specializing in modern web technologies including HTML5, CSS3, JavaScript (ES6+), and Node.js. Proven ability to build complete web solutions — from responsive, accessible frontends to scalable backend services and database integration. Strong foundation in computer science fundamentals, version control with Git, and agile development workflows. Dedicated to continuous learning and delivering high-quality software that solves real user problems.

WORK EXPERIENCE

Zara-Ecommerce

2022-2023

Dedicated and reliable employee with hands-on experience in supply operations at Zara E-Commerce. Skilled in managing inventory, processing orders, and ensuring smooth logistics flow in a fast-paced retail environment. Proven ability to work efficiently under pressure, follow procedures accurately, and contribute to team success. Eager to build on this experience and grow within the retail or technology sector.

Mr Bit

Front End Developer

2025

As a Frontend Development Intern, I collaborated with the development team to design and implement user-friendly web interfaces using HTML, CSS, and JavaScript. I contributed to improving website responsiveness, fixing UI bugs, and ensuring cross-browser compatibility. During my internship, I gained hands-on experience with modern frameworks like React and improved my skills in Git, responsive design, and teamwork in a real-world development environment.

EDUCATION

Software Engineering School of Engineering|Haliç University

2022-2026
